

Solutions For Off-Highway Truck Dump Bodies

Manufacturing capabilities that you can trust

Since the early 1980's, SMS Equipment has been assisting our customers to achieve their desired haul truck body life cycle and payload goals. SMS has manufactured and assembled rock, iron ore, oil sands, and coal bodies ranging from 120 ton to 400 ton payload.

Over the past 30 years, SMS has become very proficient at mastering the sensitive balance of duty cycle and payload. Having fabricated well over 500 truck bodies starting from high-grade abrasion resistant plate steel, our customers recognize SMS's expertise and not only purchase SMS fabricated replacement truck bodies, but also pursue SMS to remanufacture, and manufacture, their other branded bodies. Manufacturing capabilities that you can trust.

The outcome of these alliances results in many unique designs and benefits. From structural enhancements such as rounded canopies to reduce canopy loading and added strength, to improving current practices such as unique wear products and packages.

One of the most recent truck body designs is the ST Body. The ST body is a new lightweight truck body that was originally designed for the Komatsu 930E (320 tons payload), but has since been expanded to other models such as the Komatsu 830E (240 tons payload). This ST base design can readily be re-designed to fit any model of haul truck, in any application.

At SMS, we understand what our customer requires and we work intimately with our customer to design and fabricate a truck body that meets their payload requirements, while maximizing the usable life of the body.

- Designed, engineered, and fabricated in Canada by SMS Equipment
- Local support by SMS qualified and experienced personnel
- Custom design according to specific customer requirements
- Optimum engineering via state-of-the-art 3D design software and finite element analysis (FEA)
- Komatsu* approved for capacity, payload, balance, and safety

* Komatsu model truck bodies have been reviewed and approved by the manufacturer, Komatsu America Corp.

TRUCK MODEL	DESCRIPTION	BODY PART NUMBER	BODY WEIGHT
Komatsu 980E-4	SMS Oil Sands Body	HT-980E-O1-2000	112000
Komatsu 980E-5	SMS Oil Sands Body	HT-980E-5-O2-2000	112000
